### THEY ALL SEET

After They Know McNichol.  
New Margery Earl was as pretty a girl  
as ever you saw before.  
She had a thing one dangerous kink,  
She longed for the gay sea-shore.  
Turned her nose at friends or foes,  
Who called her a fussy girl.  
Till her father said, "Father  
Than have her melancholy."

Now you must know she had a head,  
A nice sort of fellow.  
Who hoped to carry his wish and marry  
Before the leaves turned yellow.  
But Margery Earl, with teeth of pearl,  
Said "Not if I know it, sonny."  
I like not life as a poor man's wife,  
I'd rather be a girl like Miss Earl.

When she came back, alas, alas,  
Her clothes were all in tatters.  
She had struck a stroke of luck  
As her young man, Billy Blatters.  
He was a girl, unlike Miss Earl,  
Ready for cloudy weather.  
They soon decided to be married,  
By pulling both together.

She was not sick, he sought McNichol,  
They were not modest.  
Until they made, with his strong aid,  
A home by weekly payment.  
Said this young man, "This is the plan,  
The best for prince or peasant:  
My wife and I for nothing sigh,  
Our home makes life so pleasant."

Once look into the installment plan and see how easy  
It is to put a little each week for the very best thing  
on earth—your own home—and you will not delay an  
hour longer. Even a poor widow can, soon shelter  
her little ones by going to  
(Trade Mark) THE ONLY McNICHOL,  
1022 and 1024, 1022 and 1024 Market St.  
P. S.—Don't be backward in stating your wants;  
nobody will know that you pay by the week. El-  
egant furniture, carpets, curtains, pictures, ice  
chest, folding beds and baby carriages, cheaper now  
than they will be again. Get a gasoline stove by all means.

## A QUEER COMPLICATION.

PROLIFIC INSTANCE OF THE GROWTH OF A RUMOR.

How the Office of Internal Revenue Collector Was Disposed of by Popular Report—Running Down the Rumor—The Story of the Three Black Crows Paralleled in St. Louis.

AN AMUSING instance of the manner in which reports of political appointments spread can be found in the competition for the position of Internal Revenue Collector for the Eastern District of Missouri. This office, which has been vacant for some time, has attracted the attention of a large number of aspirants, and the competition has become very keen.

The race has been for the last two months narrowed down to Isaac H. Sturgeon and Charles F. Wenner. Each candidate has a strong backing. On the side of Sturgeon can be counted the Secretary of the Interior, John W. Noble, the 53d in force, the Illinois Republican leader John C. Orr, B. C. Keres, Joseph L. Griswold and many other prominent men. Wenner has the three St. Louis Congressmen on his side, with nearly all of the German element, and a large proportion of the rank and file of the voters of the Eighth Congressional District.

A rumor was current this morning that Wenner would be the successor of the present incumbent, Freeman Barnum. G. H. Oving, formerly a member of the Republican Central Committee, was given as authority for the report. A gentleman intimately connected with the internal revenue service, said that he had heard from a personal acquaintance of Mr. Oving, that the commission of Internal Revenue Collector had been promised to F. G. Niedringhaus by President Harrison, and that he would name Wenner as the new collector. This information was said to have emanated from Mr. Oving, who was a third party.

The transmitter of the news, who is an officeholder, said that he had heard the same story, with a few variations. Mr. Niedringhaus had declined upon the importance of the Republican victory in this city, and had said that the President ought to allow the recommendations of the Congressmen to govern the appointments to local offices. Mr. Niedringhaus was open in his advocacy of the appointment of Wenner. The President had indicated to his satisfaction of the case without remark, and the deduction was that he regarded it favorably.

HOW THE RUMOR DEVELOPED.

In order to ascertain the exact situation of affairs a call was made upon Mr. Oving. He said that the rumor was a fabrication, and that he had no knowledge of the matter. He said that the President had no intention of appointing Wenner, and that he had no knowledge of the matter.

A visit was paid to G. H. Oving, and the report proved to be without foundation. Mr. Oving was a prominent leader of the Eighty-third District Republicans. Mr. Oving, according to his reminiscences, had been a member of the committee which had been appointed to investigate the case of Wenner. He said that he had no knowledge of the matter, and that he had no intention of appointing Wenner.

Each of the two contestants for the office of Internal Revenue Collector have a large following. Mr. Sturgeon was originally a Democrat, and before the war was the Sub-Treasurer of the United States at Springfield, Mo. The rebellion broke out he called for troops to protect his home in his charge, and thus gained the enmity of the ultra-southern faction. On the slavery issue he joined the Republican party. He has been a prominent leader of the party in this city, and has been appointed Mr. Sturgeon to the office of Collector of Internal Revenue after the whiskey traffic. He said the office was displaced by President Cleveland. Mr. Charles H. Niedringhaus has been connected with the whiskey traffic, and has been a prominent leader of the party in this city. He has been a prominent leader of the party in this city, and has been a prominent leader of the party in this city.

RAISING THE FUNDS.

Enthusiastic Meeting of the World's Fair Finance Committee To-day.

The work of securing the location of the World's Fair at St. Louis may be said to have fairly commenced to-day. At 3 o'clock this afternoon the Finance Committee met in the reading room of the Merchants' Exchange, and the committee was chosen unanimously to fill the office.

On behalf of the Executive Committee of the Fair, Mr. Sturgeon appeared at the meeting, and urged upon the committee the necessity of raising at least \$50,000 for the Fair. Without this, he said, the committee could not proceed with the preliminary step it was absolutely essential to take. Subscriptions to at least this amount, he said, had already been received, and the Finance Committee was chosen unanimously to fill the office.

A meeting of the sub-committee on foreign correspondence was held at 4 o'clock, at which a plan for notifying foreign states of the advantages of St. Louis was laid out. At 5 o'clock the Finance Committee met in the reading room of the Merchants' Exchange, and the committee was chosen unanimously to fill the office.

Small Robberies.

A sneak-thief entered the room of D. C. S. Purgett, 781 South Sixth street, Carondelet, some time last night and stole a pair of trousers and a vest. In the pocket of the trousers was a gold-mounted spectacle valued at \$15, while in an aligator pocket-book in the pants was a warrant on the Carondelet Jail for \$20.

New Warrants.

Warrants were sworn out this morning charging John Cohen with grand larceny in stealing clothing valued at \$45 from Little

## AMONG THE BROKERS.

CLEVELAND AND ANCHOR, PINE GROVE AND WEST GRANITE THE FEATURES.

The Former Recoverers on Good Bidding—Pine Grove Holds its Own—West Granite Higher—A Good Strike in the Hope—Development of the Standard—Regular Transactions.

There was comparatively little trading on the Mining Exchange floor this morning, and the bulk of what was there, was in shares of the Cleveland and Anchor, Pine Grove and West Granite. The former recoverers on good bidding—Pine Grove holds its own—West Granite higher—A good strike in the Hope—Development of the Standard—Regular Transactions.

Pine Grove recovered really more business attention than anything else, mainly because the clean-up from its first mill run was thought to be fairly good. It did not come in, however, and a suit entered by W. H. Johnson against James Edwards, a shareholder in the company, was the only thing that attracted attention. The suit was for \$100,000, and was for the purpose of recovering the value of the stock.

a year of hunting and fishing or a pardon  
from Gov. LOWRY, in case of conviction,  
Mr. KILBURN should not need much time  
to make up his mind about going to Mis-  
sissippi.CHICAGO is only seeking to defeat St.  
Louis by dividing the West in the contest  
for the location of the World's Fair. The  
New York Tribune says Chicago business  
men are already applying for space in  
New York's World's Fair.The extemporaneous speeches of the  
President need a copious injection of  
"Lige" Halford-and-revision elixir to  
make them perfect successes. But that  
would make them "extemporaneous"  
only in a campaign sense.WHETHER St. Louis secures the World's  
Fair or not the 1 per cent of the subscrip-  
tions of citizens paid in for expenses will  
be well-invested. It will demonstrate to  
the world that St. Louis ought to have the  
Fair and is the most prosperous city in the  
first country on earth.The idea of holding tariff-reform pic-  
nics, originated by the good people of  
Pittsburg, is an excellent one. It proves  
that tariff-reform principles are marching  
on, and the picnics are the best kind of  
preludes to the big picnic which will come  
off when justice and wisdom triumph over  
favoritism and greed.LATE reports from Behring's Sea state  
that the Rush is actively engaged in police  
work there, four or five vessels having  
been seized and searched. Only the set-  
tlement of the Behring's Sea question by  
the courts or through diplomatic channels  
will prove whether the activity of the  
Rush is pernicious or not, and whether the  
United States will have to pay for it.THERE is a bright prospect that the de-  
sire of the citizens of West Plains, Mo., to  
secure railroad connection with St. Louis,  
will be satisfied by the building of a road  
from Salem to that city. This move-  
ment, as the movement of the citizens of  
Whitita to secure better rates to and  
closer commercial union with St. Louis,  
and all others looking to an extension of  
the commerce of the city, deserves en-  
couragement and aid from St. Louisans.  
The roots of St. Louis commerce should  
reach to every point in her surrounding  
territory and particularly in the South-west. They add to her prosperity and are  
additional strings to her World's Fair bow.

## A BOOM IN FAIR STOCK.

According to certain carefully written  
portions of the Chicago papers, a sad  
state of affairs, which may end in riot  
and bloodshed if not speedily adjusted,  
exists in that city. The trouble is all on  
account of the stock of the World's Fair  
Company.When this great corporate bluff at the  
Columbian Exposition was organized the  
capital stock was fixed at only \$5,000,000,  
a mere bagatelle to a town extending  
over several counties and composed mostly  
of millionaires. In order that the mil-  
lionaires might not gobble all of the  
bonanza and that the few plain citi-  
zens of the Windy City might invest  
some of their surplus mortgages in the  
enterprise, the equitable plan was  
adopted of apportioning the stock in fair  
quantities to the different branches of  
trade and industry. So certain amounts of  
stock were set apart for the pork-packers,  
street-car men, railroad men, hardware,  
dry goods, boot and shoe men, butchers,  
bakers and milkmen. Now comes the  
row. The representatives of some of the  
trades are not satisfied with their ap-  
portions. They are as backward as the  
millionaires in taking what is set apart for  
them, but think their guilds are entitled to  
bigger figures on the show bills. So the  
World's Fair Committee in Chicago are  
surrounded by a howling mob of bakers  
and milkmen clamoring for a larger ap-  
portionment.The course of the milkmen is suggest-  
ive of watering operations, and on their  
account alone it is proposed to dilute the  
stock largely. But it is noticeable that  
the stock set apart for the plumbers,  
pork-packers and other plutocrats re-  
mains uncolored, while the ordinary  
millionaires, who were expected to gobble  
up all the stock in sight if not prevented,  
are singularly backward and modest. They  
seem magnanimously determined to give  
the poor a chance, and even to let the  
eager milkmen have the whole issue all  
to themselves.

## A ST. LOUIS SPECIALTY.

The unique success of the St. Louis  
Fair, year after year and decade after  
decade, has stood for a generation strik-  
ing contrast with the speedy and utter  
failure of the hundreds of attempts to  
establish such fairs in other cities. This  
suggested the idea that St. Louis could  
establish and maintain an Exposition also  
peaceful and permanent, and of national  
celebrity as a self-sustaining attraction in  
conspicuous contrast with the bankruptcy  
and collapse of expositions in all other  
cities.For five years now the success of the  
St. Louis Exposition for two months ev-  
ery year has been as unique and grand as  
that of our Fair, and the success of both  
in such striking contrast with the multi-  
tude of failures in other cities is the  
strongest possible demonstration of our  
claim that St. Louis is obviously the best  
location for a great national World's  
Fair.But the latter is three years away yet,  
and in the meantime the best thing we  
can do to get it is to hold our Exposition  
and our Fair both up to their old standard  
of success and celebrity. We must not  
overlook or neglect them in our eagerness  
to grasp a far-away thing. We should  
rather make the most of them to secure  
the other.

## A STROKE OF BUSINESS.

The course of the Rush in continuing  
such bogus captures as that of the Black  
Diamond affords a tolerably distinct clue  
to the policy of the administration and  
reveals the characteristic smartness of  
Mr. BLAINE.The fur seal monopoly now held by the  
Alaska Commercial Co. by a lease that  
runs out in a year or two more, is soon to  
be let again, and a syndicate of American  
capitalists has been formed to take it in.  
The stock of the old company was soon  
all bought up by Germans, and it cannot  
be a bidder for the lease because the law  
provides that only American citizens  
shall lease the fur seal privilege or occupy  
the islands for the purpose of taking seals.  
So another American company can get  
the lease without competition and again  
sell the stock at a big profit to Germans  
or other foreigners.But the value of this stock to Germans  
or any other speculators in Government  
monopolies will depend upon whether our  
Government's protection of this monopoly  
can extend all over our side of Behring's  
Sea, or must be limited to three miles from  
shore only. The seizure of a whole fleet  
of British sealers, and letting them go again  
uninjured, is the cheapest way of keeping  
the question of the lawfulness of such seiz-  
ure out of our own courts and bringing on  
a diplomatic correspondence and adjust-  
ment of the question with the British  
Government.The vessels are technically seized,  
searched and detained for an hour or two  
and then turned loose to send their com-  
plaints and their small claims for dam-  
ages to Lord SALISBURY, who will in due  
time present them politely to Mr. BLAINE,  
who can in settling the bill for damages  
ascertain just how far Great Britain will  
consent to the extension of the Alaska fur  
seal monopoly over the ocean highway of  
Behring's Sea when the said monopoly  
shall have been leased to a syndicate of  
the administration's wealthy friends.A PROPOSITION has finally been made by  
President SCOTT of the Spring Valley coal  
mines to the striking miners. It offers an  
advance of 5 cents per ton over the pricewhich caused the strike. There is a con-  
dition attaching to the offer which aims at  
the destruction of the miners' organiza-  
tion, but as the question has become one  
of work or starvation it is to be hoped  
that a satisfactory adjustment of present  
difficulties will be reached. Any adjust-  
ment of miners' wages must be only tem-  
porary, as the condition of the mining  
business under agreements as to produc-  
tion and prices and under the changing  
processes of mining and the variable de-  
mand offers a difficult problem for settle-  
ment before the work and wages of miners  
can be placed on a substantial basis.The stockholders of the South Fork  
Fishing Club are thinking of rebuilding  
the destroyed dam because they say that  
\$300,000 invested in real estate by the club  
will otherwise be a total loss. In view of  
the millions of dollars' worth of property  
and the thousands of lives destroyed by the  
breaking of the former dam the million-  
aire members of the club should bear  
their loss of \$300,000 with positive satisfac-  
tion. And the people of Johnston  
should have something to say with regard  
to the rebuilding of the dam.Two new cruisers have been tested by  
the naval board appointed for the pur-  
pose and both—the Boston and Atlanta—  
have been disabled. In both trials alone  
the seamanship of the officers in com-  
mand was somewhat discredited. There is  
evident danger that if these tests are  
continued we will not have either vessels  
or officers considered fit for actual duty.  
It is really too bad to destroy the pleasant  
illusion of possessing an efficient navy in  
this ruthless way.It is entirely proper that the World's  
Fair Executive Committee should go slow  
in selecting a permanent chairman. It is  
better that someone should be consumed  
in finding the right man than that the  
wrong man should be selected. But time  
is important. The local organization  
should be thoroughly perfected and  
actively at work making the chain which  
will bring the Exposition to St. Louis.The rise in whisky which troubles Tem-  
perance Advocate DEERING will certainly  
be succeeded by a fall, and we can assure  
him that the liquor will drop in the right  
spot. As for the price of the article, no  
ardent lover of good bourbon or rye ever  
bothers his head about that. He will have  
it if he even has to do with fewer clothes  
or cut down home expenses to get it.The chief Administration organ approves  
Mr. Wanamaker's defense of his contribu-  
tion of money to elect Harrison. It says that  
he "gave to the industry and independence  
of his country as truly as Revolutionary pa-  
triotism made sacrifices for its political in-  
dependence."The ethics of this doctrine is only equalled  
by logic. To compare the contributions to  
a political corruption fund by rich men with  
the contributions of the poor is to compare  
users anxious only to save their fortune-mak-  
ing tariff bounties with the self-sacrificing de-  
votion of the patriots who achieved the na-  
tion's independence is an insult alike to the  
poor and to the rich. Equally prepos-  
terous is the assumption that the majority  
of the voters of this country need to be in-  
duced or bribed to protect their own interests.  
The notion that a little ring of rich manufacturers,  
monopolists, mine owners, monopolists lum-  
ber lords and other men licensed to tax the  
community would put up a campaign fund  
of several million dollars to "defend the in-  
dustrial independence of the country," or for  
any purpose whatever save to preserve the  
status quo, have made them wealthy, is  
at any rate a piece of a comic logic.The Greek Church has five

## SAYS IT'S A FRAUD.

L. F. Mitchell (Cane) the Arrest of the Silver Point Mine Promoters.

On complaint of L. F. Mitchell, engineer at the Union Elevator, a warrant was sworn out yesterday afternoon charging Isaac and Margaret Turgoose with fraud. Mrs. Turgoose was found at her room, 2326 Fine street, late in the afternoon. She was taken to the Court house, where she gave bond in the sum of \$1,500 for her appearance in the Court of Criminal Correction for preliminary hearing. Her husband has not yet been arrested. It is understood, however, that he is now on his way to this city from Chicago, and an officer has been detailed to arrest him at the Union Depot.

As above stated the Turgooses are charged with fraud. They claim to own a controlling interest in a large coal mine, the "Silver Point" near Deadwood, Dak., which Turgoose located and named the Silver Point. According to the statements of Mr. Mitchell, the mine is practically valueless, yet the two defendants have incorporated the "Silver Point Mining & Milling Co." under the laws of the State of Illinois, with a capital stock of \$1,500,000, with shares at a par value of \$10 each. Several thousands of these shares have been placed on the market at prices ranging from 25 cents to \$1.

Mitchell claims that the mine is a fraud. He has 400 shares of the stock and was elected as Vice-President of the company, Turgoose being the President. He said: "Some time ago I became suspicious of the deal and sent Chas. Bannick, an expert, to examine the mine. He refused to examine it, and I shall now prosecute Turgoose and his equally guilty wife to the extent of the law. They have been selling the stocks at prices, placing large quantities of it in the hands of poor shop girls in Chicago and this city. There is probably \$40,000 worth of the stock in this city."

Mrs. Turgoose insists that the prosecution is simply a scheme of Mitchell's whereby he and his associates might obtain control of the property. She says she and her husband own a controlling interest in the mine, which will be in operation in a short time, and the machinery being now on the way to Deadwood. An examination of the papers by the proper officials will settle the question of fraud.

BROKE IN THE DOOR.

Deputy Sheriff Force an Entrance to Henry Steinmeyer's House.

Guilt or not guilty, Henry Steinmeyer takes his arrest and imprisonment very coolly. The young man was arrested late this evening by Deputy Sheriff Hartwig and Lund, who were forced to break in the door of the prisoner's residence at 2838 Franklin Avenue to obtain their man. Steinmeyer is charged with embezzlement of the deal and sent Chas. Bannick, an expert, to examine the mine. He refused to examine it, and I shall now prosecute Turgoose and his equally guilty wife to the extent of the law. They have been selling the stocks at prices, placing large quantities of it in the hands of poor shop girls in Chicago and this city. There is probably \$40,000 worth of the stock in this city."

Lili McNeil gave a banquet to Christy Church last night at the University Club. The affair was to celebrate the engagement of Mr. Church to Miss George McNeil. The banquet was known for a month or more, but has only recently been formally announced. About fifty of Mr. Church's friends were present, and they spent a most enjoyable evening. The fortunate young man was congratulated by everybody in attendance. The banquet was a complete surprise to him, as Mr. McNeil had induced him to leave the city on the pretext of telling him any intimation of what was to occur.

## BILLY BARNIE'S BUDGET.

THE BALTIMORE MANAGER GIVES HIS VIEWS ON BASE BALL.

Boston Again Downs New York—Chicago Passes Cleveland in the Race—Racing at New York, Chicago, Saratoga and Other Points—Latham Conditionally Reinstated—General Sporting Matters.

THE BROWNS are playing great ball, remarked Manager Barnie of the Baltimore Orioles this morning. "As they have taken three straight from both the Brooklyn and the Athletics, I cannot see much hope for us. We want all the help we can get, and we will try hard for them, but if we get one of the three games we will be fairly well satisfied. This club of ours has been playing a very steady game, however, and if the Browns beat us they will have to work. Our weak spot has been at short. We have signed Ray of the Boston team to play here, but he found he could not come on in time. Holland is a good man, but the company is a little too fast for him. He is laid up with a couple of boils, and it is doubtful if he can play him. If we will put Cunningham, one of our pitchers at short. We were beaten 20 to 0 in the first game at Cincinnati, but came to the scratch smiling next day and won both the remaining games there. We have a postponed game with the Browns on Saturday, and we should have won. The race between the Browns and Brooklyn is a close one, and it is very doubtful now about St. Louis. The Browns are the favorite to win. The Browns will have a big advantage in playing on their home grounds, while the St. Louis will be playing away from home. Still the Brooklyn have more hard games. Now we have ten regularly scheduled games to play them yet, and seven of these are on our grounds. They have only played us three games on our grounds and we won them all. We put up a very strong team, and we can rely on it that none of the other clubs will lose to Brooklyn if they can help themselves merely to keep the pennant from St. Louis. We are after second place and will win every game we can get. We have a postponed game with the Browns on our own grounds, making four games we have to play them there. This series of three here makes seven games in all we have to play them."

Latham Reinstated.

Latham has been reinstated. Several times since his suspension he has attempted to get back on the team, but Mr. Von der Ahe paid him no heed. The third base man was given a grant of a week's leave, and he was allowed to return to the team, but he was not allowed to play in any more of the team's games.

Saturday's Game.

The Baltimore and St. Louis Clubs play at Sportsman's Park on Saturday and Sunday afternoons, and these will be the last games of the season. The game on Saturday was a close one, and the St. Louis won by a score of 10 to 9. The game on Sunday was a close one, and the St. Louis won by a score of 10 to 9.

The Championship Race.

At Boston yesterday the team again defeated New York, and the race between the Browns and Brooklyn is a close one, and it is very doubtful now about St. Louis. The Browns are the favorite to win. Yesterday's Games.

The Columbus Club lost at Cincinnati yesterday by a score of 10 to 3. Gastright was batted out of the box, Widener taking his place. O'Connor was their back stop. Petty and Keenan were the Cincinnati battery. Base hits—Cincinnati, 6; Columbus, 6. Errors—Cincinnati, 2; Columbus, 4.

Baltimore won at Kansas City by a score of 6 to 3. Although the home team was outplayed and out-fielded them, Conway and Hoover were the Baltimore battery. Base hits—Kansas City, 10; Baltimore, 6. Errors—Kansas City, 2; Baltimore, 4.

This series of three here makes seven games in all we have to play them."

At New York yesterday the team again defeated New York, and the race between the Browns and Brooklyn is a close one, and it is very doubtful now about St. Louis. The Browns are the favorite to win. The Browns will have a big advantage in playing on their home grounds, while the St. Louis will be playing away from home. Still the Brooklyn have more hard games. Now we have ten regularly scheduled games to play them yet, and seven of these are on our grounds. They have only played us three games on our grounds and we won them all. We put up a very strong team, and we can rely on it that none of the other clubs will lose to Brooklyn if they can help themselves merely to keep the pennant from St. Louis. We are after second place and will win every game we can get. We have a postponed game with the Browns on our own grounds, making four games we have to play them there. This series of three here makes seven games in all we have to play them."
